great educators

Strategies That Empower Educators

Maximize the impact of online and blended learning.

Edgenuity's Professional Development Consultants equip educators with the knowledge to effectively use our courses, digital tools, data and reports, and learning management system. They also provide job-embedded coaching on instructional strategies and classroom routines in a blended or online learning environment. It's a combination that ensures educators are prepared to help students stay engaged, show progress, and achieve real learning.

Edgenuity empowers teachers and administrators to reach diverse student populations and improve outcomes.

Beginning with the development of essential skills, Edgenuity's professional development workshops and coaching lead to advanced online and blended learning practices. Educators will know how to effectively use data to measure and drive student engagement, progress, and achievement.

Workshops can be delivered on-site or online.

Professional Development That Leads to Student Achievement

GUIDE TO PROGRAM SUCCESS

Teacher Workshop

This workshop introduces educators to the essential skills needed to utilize Edgenuity effectively in their classrooms. Participants learn how to interact with Edgenuity's curriculum in a hands-on training environment; add, edit, and manage student accounts; and customize Edgenuity courses to meet the various needs of students. Participants also explore sample student data and gain an understanding of key reports for monitoring student progress.

Administrator Workshop

This workshop is an intensive, collaborative, one-day workshop designed to help administrators prepare for a successful implementation of the Edgenuity Learning Management System (LMS) and courseware.

INTRODUCTION TO BLENDED LEARNING WORKSHOP

This workshop is designed to help participants gain a better understanding of blended learning implementation models and how they can be applied in the classroom using Edgenuity courseware.

CURRICULUM WORKSHOP

The Curriculum workshop is designed to help curriculum leads or individual teachers plan for implementing Edgenuity courses in their classroom. Utilizing our new customization toolset, teachers plan and start the hands-on customization process to build their own courses.

EDGENUITY MYPATH TRAINING

Edgenuity MyPath® training provides educators with the knowledge and skills necessary to use this intervention program effectively and efficiently to help students catch up, keep up, or get ahead.

INSTRUCTIONAL SERVICES TRAINING

Edgenuity Instructional Services provide standards-aligned courses taught by our highly qualified, state-certified virtual instructors. Edgenuity's teachers can serve as the teacher of record, providing proactive instruction, remediation, and motivation. Edgenuity Instructional Services training provides on-site educators with the knowledge and skills necessary to collaborate with Edgenuity's virtual instructors. Through hands-on instruction, educators will learn more about their roles as mentors, how to use the student information system to monitor student progress, and how to effectively partner with Edgenuity's virtual instructors to ensure student success.

COACHING SERVICES

Coaching is broken up into four themes containing modules organized around each theme. Modules span a minimum of three days and include in-person observations, facilitated discussions and workshops, and teacher-initiated action plans. Coaching is personalized, so you can mix and match modules within each theme to match your team's goals. The four themes are:

- Beyond the Basics
- Data Deep Dive
- Learning in an Online World
- Advanced Digital Learning
